## Mobile light tower

**AUST Light Tower** has released a mobile outdoor lighting solution for commercial, industrial and promotional applications.

Consisting of an inflatable, adjustable, semi-transparent tube, the Light Tower stands up to 5 m high and is capable of illuminating an area of 10,000 m<sup>2</sup> in less than three minutes.

It weighs 25 kg and can be operated by one person.

The adjustable tube inflates within one minute using a built-in fan, and after five minutes the sodium lamp in the top of the tower has a capacity of up to 600 watts.
